

# Hinkley Point B Power Station

## Monthly Newsletter

### September 2019 monthly report

#### Introduction

This is our latest monthly report, sharing news with our local community stakeholder groups and local councils. This forms part of our commitment to being an open and transparent business. These reports are also available to all members of the public at [www.edfenergy.com](http://www.edfenergy.com). This newsletter covers **August 2019**.

#### Safety and Environment update

We measure our safety performance against top tier indicators. It is now over twelve years since we experienced a nuclear reportable event, over ten years since our last environmental event, over three years since the last lost time incident to an EDF Energy member of staff, and over two years since the last lost time incident to a contract partner. These high levels of safety performance are comparable to some of the best performing nuclear power plants in the world, and we will ensure we maintain this focus and these high standards as we strive towards operational excellence.

#### Station generation

Reactor 3 / turbine 7 has been on-line since 16 June 2019, and operated at full load throughout the month.

Reactor 4 / turbine 8 has been on-line since 21 February 2019, and operated at nominal full load throughout the month.

#### Community news

##### Staff fundraising

Workers at Hinkley Point B are continuing to do their bit for charity, and in August EDF Energy employee, James Lancaster, raised over £500 for The Alzheimer's Society after taking part in a sponsored 66 mile bike ride across Exmoor. Our congratulations go to James for his efforts.

#### Next community meeting

The next Site Stakeholder Group meeting will be held on Friday 25 October 2019 from 10:00 hours to 13:00 hours at the Hill House, Otterhampton.
