

# Hinkley Point C look ahead

February 2020

We carefully manage our works at Hinkley Point C, ensuring our construction activity has minimal impact on our neighbours. However, you may still see and hear some aspects of the work. This is a summary of some of our current works:

Location		Description of works
1	Big Carl	Big Carl has performed it's first big lift at Hinkley Point C. To find out more, and see video footage of the lift, visit our website <a href="#">here</a> .
2	Landscaping	Hedge laying activities will be undertaken between the northern and southern roundabout.
3	Corallina Works	Works continue to protect the seaweed (corallina) which live on the foreshore.
4	Decoupling Wall	A short stretch of the decoupling wall will be demolished to allow for a new access road and working area. These developments will support both the Heat Sink and Tunnelling works.
Off Site	Combwich Wharf	2020 will see us enter the main phase of works on the wharf, with construction activity at its peak. Over the coming months, demolition of the Abnormal Loads Quay is planned to take place to reduce its height. Construction of the transport contractor offices also continues.  Following a presentation to Otterhampton Parish Council, further information on the works can be found under the FAQ section of our website <a href="#">here</a> .

**In other news...**

We welcome our new chaplain, who is going to be based on site full time, to the team. Ewen Huffman will work alongside the occupational health team, 230+ mental health buddies and campus based chaplains to be someone workers can talk to in confidence.
