

Hinkley Point C look ahead

January 2020

Below is a summary of key activities the project will be focusing on in 2020 as well as the dates for the Community Drop In. We have also provided information on activities at Hinkley Point C over the Christmas period and in January.

Focus for 2020

- Install the containment building steel lining
- Complete the foundations for Unit 2
- Complete the manufacture of Unit 1's Feed Water Tank
- Engineering planning for the Reactor Building Internal Structure

Community Drop in Dates for 2020 – Babbling Brook (Shurton) 12- 1pm

Friday 31st January
Friday 17th April

Friday 21st August
Friday 11th December

Activity in January

Location		Description of works
Off-site		Combwich Wharf refurbishment works will ramp up next year, as we enter into the main phase of works. An update will be provided via a Parish Council meeting in the New Year.
1	Foreshore Corallina Works	Works continue to protect the seaweed (corallina) which live on the foreshore. You may see an increased number of workers on the foreshore, this is so that each bund build can be completed within one tidal window. The new structures will form a robust watering system that will safeguard the corallina that live close to the Jetty.
2	North Plaza	In the New Year, the bus park will move to a central location at the North Plaza. Buses will use the South Plaza, located next to the Hinkley Campus, to access site.

Visit us at: EDF Energy Visitor Centre, Angel Place Shopping Centre, Bridgwater, TA6 3TQ
Drop In: Friday 31st January 2020 – Babbling Brook – 1200 to 1300

Christmas Slowdown

The site will significantly reduce construction activities from December 20th. The site will be back to full operation from January 2nd.
 The 24/7 telephone line will be open throughout this period.
